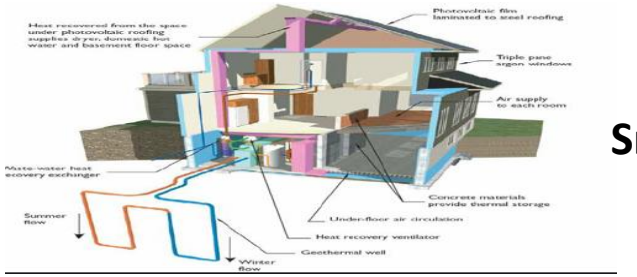
Eurogia Technical Committee Chairman

Time to Address the Climate Change

with Innovative Projects tackling 4 Thematic Pillars

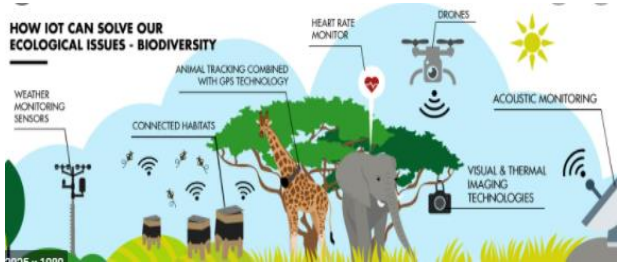
Carbon Free Energy Supply

Greener & Smarter Mobility



Smarter Housings & Constructions

Bio Resources and environment



Possible Application areas

- Offshore Wind turbines, bioenergy, solar panels, fuel cells power to-X, energy storage
- Hydrogen Fuel cell (production, storage, station)
- CO_2 Capture, Sequestration and Utilization
- Green and Zero-emission Buildings, Smart cities, heating
- IT solutions in buildings, smart monitoring, 3D construction, digital twins in housing design
- AI, IoT, Bigdata, 5G/6G integrated solutions in cities
- Smart Grids, Micro-Grid, E-mobility
- Monitoring of the environment and bio resources
- Drone and satellite monitoring systems of land, rivers, sea Industrial robots, sensors, edge cloud computing, Raman Mass spectrometry, AI, big data
- … and many more.

eureka innovation beyond borders

eurogia 2030

- **The New Eurogia Info Call website**

- Project submissions will be based on the two steps process (1st step PO/ 2nd step FPP) accessed through the Eurogia Call Info website: https://eurogia-call-info.eu/
- Call guidance is available on the website
- Call submission support will be provided by the Eurogia cluster
- It is essential for each partner to contact their sup-porting Public Authority at the earliest opportunity to verify eligibility
- Funding rates/Rules of participation are subject to National policy

eurogia2030

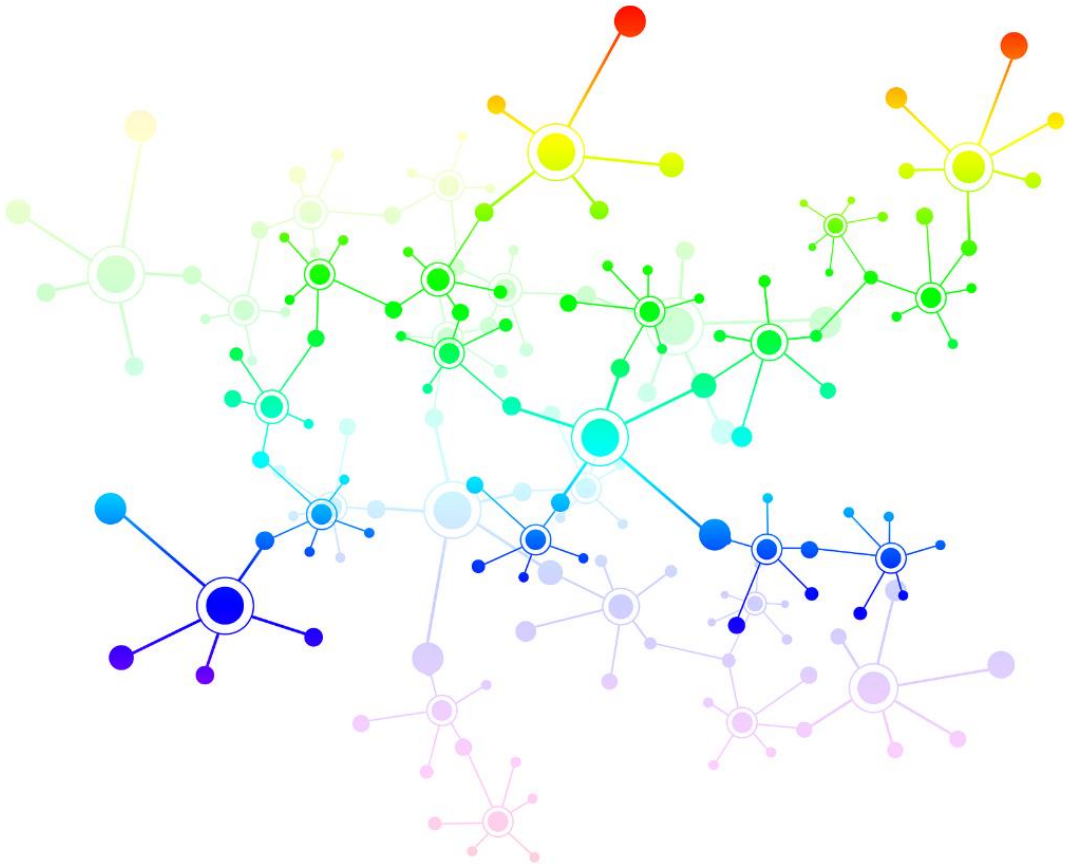
A successful Project

- **Creating Maximum Impact**
  - …should primarily target taking Low Carbon Technologies beyond the State-of-the-Art
  - …can propose innovations that will enable Energy applications
  - …will form innovative ecosystems, with Energy and Green transition at their core, that will result in high impact opportunities for commercial and/or societal impact
  - ...will bring together partners in the field of Low Carbon Technologies solutions and enabling technologies
  - …will be a “Mid-size” project with eligible costs in the range of €2-10m, (though projects outside this range may also be submitted), with a typical project duration of 2-3 years
  - …will have held in-depth meetings with the Public Authorities in the countries from which they wish to gain support.

Call Processing & Support

- **Helping you through the submission process**
  - General support is available by using the contact form on the website: https://eurogia-call-info.eu/contact/
  - **Brokerage Tool** and up-to-date Information items are available on the website
  - In-depth support will be provided by the Eurogia Cluster
  - Project Proposals will be evaluated by Cluster technical experts, together with Public Authorities, using established Cluster processes
  - Project participants must contact their respective National Funding Authorities to establish their eligibility for the Call

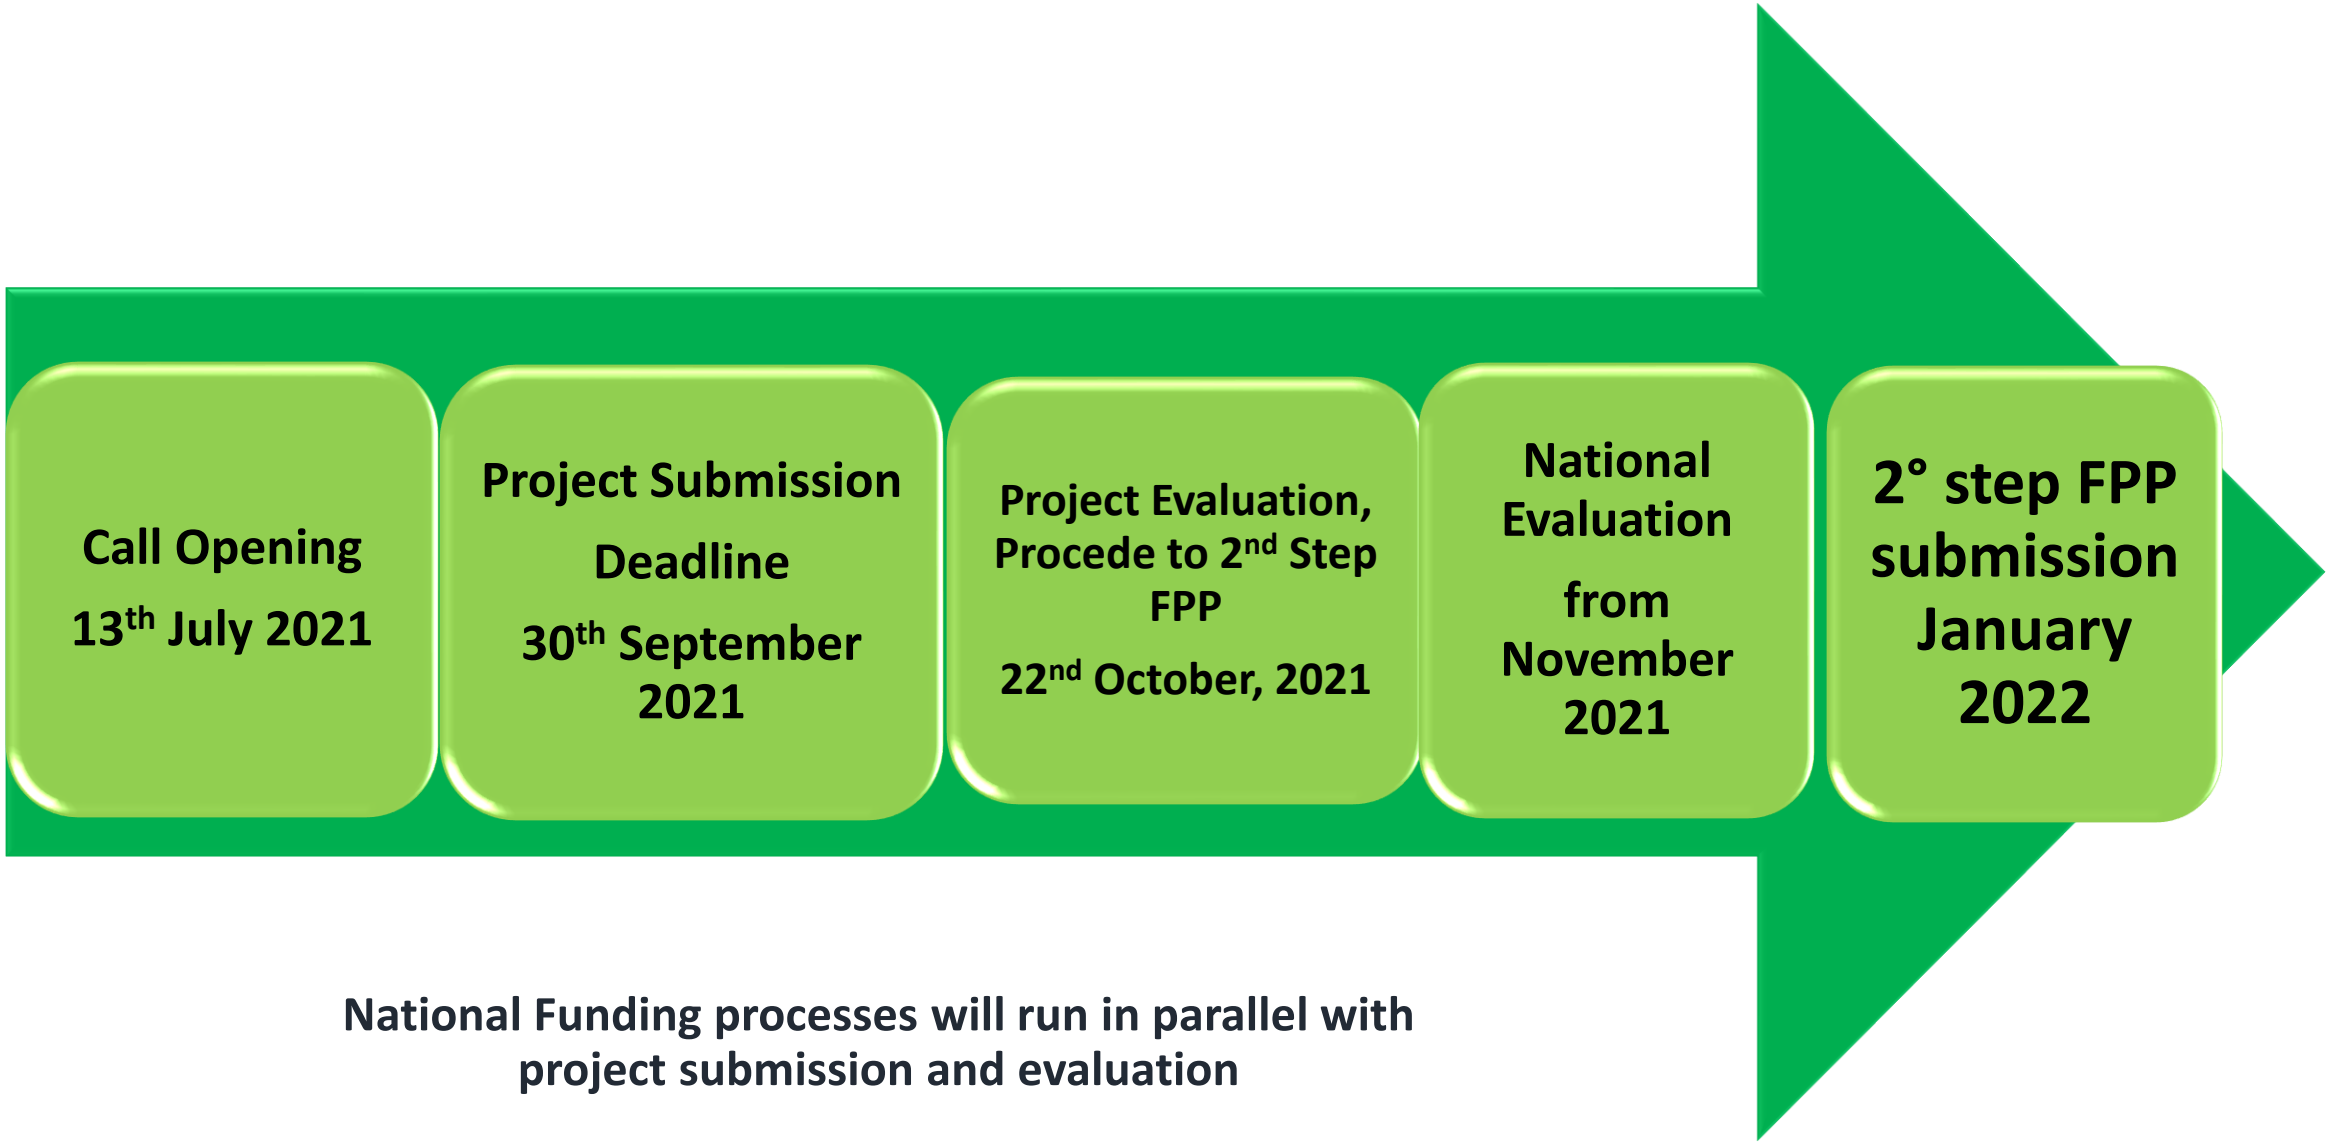
- **Helping you meet Partners and form Consortia**



EUROGIA BROKERAGE TOOL
https://eureka-eurogia-green.eu/eurogia-brokerage-tool/

In order to support you in preparing your project proposal for EUROGIA Calls, we have created an online Brokerage tool. It enables you to:

- *Upload your Project idea*
- *Upload your Expertise Offering*
- *Look for partners via the Partner Expertise search*
- *See the Project Ideas of others*
- *Contact Project Idea owners or partners*



National Funding processes will run in parallel with project submission and evaluation
