Service type ——— FOR ——— Asset/product type

- › Commodity sampling
- › Mine site testing
- › Non-Destructive testing
- › Used Oil Analysis
- › Marine Fuel Testing

- › Petrochemicals
- › Crude Oil
- › Biofuels
- › Iron Ore
- › Precious Metals

KEY ASSETS

- › **Industry leading global capabilities**, digital innovations and in-depth experience & knowledge across an extensive range of commodities
- › **From exploration to trading**, precision inspection and testing to internationally recognized standards and customer specific methodologies
- › **350+ laboratories strategically located** in key locations around the world

INDUSTRY

MISSION

Bureau Veritas supports clients to meet today's energy needs while building a low carbon future

EXPERTISE

Providing industrial clients compliance assessments for assets equipment, throughout the life of industrial facilities

- Capex: assistance during the investment phase
- Opex: service related to production continuity

Service type

- › Safety study
- › Regulatory inspections
- › Fugitive emission measure
- › HSE project management

FOR

Asset type

- › Oil Refineries
- › Gas facilities
- › Nuclear installations
- › Other industries

KEY ASSETS

- › **In Oil & Gas, a global leader in the hydrocarbon value chain**
with strong positions all along assets life cycle both onshore and offshore
- › **In Power & Utilities, a global leader with local experts in 140 countries** boosting performance and ensuring safety for conventional and renewable power productions during asset life

CONSUMER PRODUCTS

MISSION

Bureau Veritas helps its clients to provide high-quality, safe, sustainable and compliant products, connected devices and electrical & electronics products

EXPERTISE

Providing inspection services, laboratory testing, product certification, production sites and social responsibility audit to retailers, manufacturers and vendors of consumer and technology products

Service type

- › Inspection services
- › Laboratory testing
- › Social responsibility audits
- › Product certification

FOR

Product type

- › Softlines / Footwear
- › Hardlines / Toys
- › Electronics / IoT devices
- › Cosmetics / Luxury goods

KEY ASSETS

- › **Leader in wireless/IoT testing & global market access.** Top-of-the-range 5G capabilities worldwide
- › **Connectivity & e-Mobility** ready labs
- › **Ethical and responsible** selling, sourcing and manufacturing
- › **Suite of solutions** for online retailers
- › **Supply chain quality management** decision support platform trusted by the world's leading brands
- › **Partner of choice** for brand protection

CERTIFICATION

MISSION

Bureau Veritas helps its clients to shape the trust of end consumers, citizens and public authorities by providing certification, audit and training services

EXPERTISE

QHSE management systems utilized by clients comply with international standards, usually ISO norms, or with national, “industry-wide” segment or large company-specific standards

Service type

- › QHSE audits
- › Supply chain audits
- › Sustainability audits
- › Training

FOR

Asset type

- › Customized Solutions & Training
- › Supply Chain & Sustainability

KEY ASSETS

- › **A world leader in the Certification market** – a network of 8,000 auditors and more than 140,000 companies certified around the world
- › **Extensive expertise from regulatory** to customized approach
- › **Committed to support new ESG requirements** on circular economy and supply chain control

MARINE & OFFSHORE

MISSION
