

Company Overview

- Business consulting (AI, data analytics, business intelligence)
- Software development & managed services
- On-site & offshore IT outsourcing
- Research & development activities

Technology & Digital: Telecom

Financial Services: Banking, Insurance

Entertainment & Lifestyle: Entertainment

Mobility & Transportation: Mobility, Logistics, Transport Solutions

Environment & Sustainability: Agriculture, Environment & Sustainability

Services & Human Capital: Consultancy, Education, HR, Tourism, Health

Industrial & Manufacturing: Automotive, Manufacturing, Energy, FMCG, Retail

300+ Engineers

50+ Global Clients

2 Offices in Turkey

R&D Focus Areas

Artificial Intelligence & Data Analytics

AI & digital transformation
Dynamic / continuous learning AI models
Data analytics interpretation & visualization
Business intelligence applications
Image processing
Natural Language Processing (NLP)

Emerging & Immersive Technologies

IoT (Internet of Things)
AR / VR / XR applications
Smart robots & automation
5G / 6G technologies
Industry 4.0 & 5.0
Smart city & supply chain solutions

Software & Platform Development

Software development capabilities
Software & data platform solutions
Platform services & interoperability
Enterprise-ready solutions
DevOps & continuous integration

Distributed & Cloud Technologies

Distributed cloud technology
Edge computing & fog computing
Blockchain
Data lifecycle architectures
Cloud computing

Collaboration Opportunities

Track Record

- **+15** project submissions across multiple funding programs (Horizon, Eureka, ITEA etc.)
- **+100** consortium partners across **25+** countries

Contribution Areas

- Artificial Intelligence
- IoT & Edge/Fog Computing
- Distributed & Cloud Systems
- Software & Platform Development
- Data Management & Analytics
- Integration & Interoperability
- Project & Process Management
- Exploitation & Dissemination
