

Korea as a Strategic Partner in EUROGIA2030

Inno Bridge Consulting

- The gateway to Korea

Jong Won Kim

Korea in EUROGIA 2030

- ▶ Korea is a full member of the EUREKA network
- ▶ Active participation in
 - EUREKA Network Projects
 - EUREKA Clusters
 - **EUROGIA2030**

Korean Funding Structure

- ▶ KIAT
(Korea Institute for Advancement of Technology)
- ▶ Under the Ministry of Trade, Industry and Energy
(MOTIE)

Funding Characteristics

- ▶ Public funding provided **domestically**
- ▶ Full compliance
 - EUROGIA rules
 - EUREKA evaluation criteria
 - Reporting and consortium agreements

Funding Scale

- ▶ Up to approximately €330,000 per year
- ▶ Up to around €650,000 for a two-year project
- ▶ Final amount determined through national evaluation

Funding Ratios by Organization Type

- ▶ SMEs: up to 67%
- ▶ Mid-sized companies: up to 50%
- ▶ Large companies: up to 33%
- ▶ Research institutes / universities: up to 100%

What Korean Partners Bring

- ▶ Strong industrial execution capability
- ▶ Fast prototyping and scale-up
- ▶ Competence in
 - Power electronics
 - Energy systems
 - Digital energy control

Typical EUROGIA Synergy

- ▶ European partners: research excellence, system design, testing
- ▶ Korean partners: industrialization, manufacturing readiness, market deployment

My Role – The gateway to Korea

- ▶ Bridge between European consortia and Korean partners
- ▶ Identification of suitable Korean companies or research institutes
- ▶ Early alignment check with Korean funding logic
- ▶ Consortium structure support

When to Contact

- ▶ When planning a EUROGIA proposal
- ▶ When considering a Korean partner
- ▶ When clarity on Korean funding is needed

Thank you so much
